EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claims 2-8, line 1 of each, insert --monotonous-- before "counter"

2. The following is an examiner's statement of reasons for allowance:

Rast (PGPub. 2002/0021269) discloses, in FIG. 3, a counter using nonvolatile memory cells (monotonous counter), but Rast does not disclose those nonvolatile memory cells containing polysilicon resistor.

Abadeer et al. (U.S. Patent 5,334,880) disclose, in FIG. 3, programmable storage element (memory cell) comprising polysilicon resistor.

However, Rast and Abadeer et al., taken individually or in combination, do not teach the claimed invention of the polysilicon resistor programmable by irreversible decrease in its value.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
